

SEVA VAANI (सेवा वाणी)

Hackathon Evaluation Deliverable — 2-Minute Jury Demo Script (SV-DEMO-001)

TRACK: DIGITAL GOVERNANCE

11 INDIAN LANGUAGES

ZERO UNCONFIRMED COMMITS

0:00 - 0:25 | PROBLEM HOOK →0:25 - 0:55 | LIVE VOICE (HI+MR) →0:55 - 1:25 | TRUTHFUL HELP →1:25 - 2:00 | EXTENSION & CONSENT

1. The Problem Hook & Value Proposition

0:00 - 0:25 (25s)

Speaker Script: "850M+ Indians speak regional languages, but digital welfare portals (Post-Matric Scholarships, e-District) are text-heavy and English-dominant. Citizens are forced to pay middlemen at CSCs just to fill forms. **SEVA VAANI** changes this: an auditable, voice-first digital assistant in 11 Indian languages that operates both as an installable offline PWA and an in-page Chrome Extension on live government portals, with mathematically enforced **Zero Unconfirmed Commits**."

2. Live Multilingual Voice Interaction (Hindi + Marathi)

0:25 - 0:55 (30s)

Turn 1 (Hindi Name Extraction): Citizen speaks: "मेरा नाम विवेक विश्वकर्मा है"
→ Web Speech STT captures utterance → NLU extracts candidate विवेक विश्वकर्मा (Conf: 0.96) → Confirmation Gate fires.
→ Assistant speaks: "आपका नाम विवेक विश्वकर्मा है, क्या यह सही है?" → Citizen: "हाँ, सही है" → **Committed**.

Turn 2 (Marathi Natural Number Normalizer): Citizen speaks: "माझे वार्षिक उत्पन्न एक लाख ऐंशी हजार रुपये आहे"
→ Compound phrase parsed to integer 180000 → Marathi prompt: "आपले वार्षिक उत्पन्न ₹1,80,000 आहे, बरोबर आहे का?" → Citizen: "हो, बरोबर आहे" → **Committed**.

Pan-India Dialect Switch: Switch to Bengali (বাংলা), Tamil (தமிழ்), or Gujarati (ગુજરાતી) mid-session; previous field values remain strictly intact.

3. Low-Confidence Handling & Truthful Human Helpdesk

0:55 - 1:25 (30s)

Low Confidence (< 0.60): "When uncertain, do not guess." The system rejects noisy audio and asks a polite clarification prompt rather than hallucinating wrong names.

2-Failure Tier: UI presents the **Text Typing Fallback** card for manual entry without restarting.
3-Failure Tier: Citizen taps "🆘 इसानी सहायता (Human Help)" → Creates authentic SQLite record TKT-XXXXXX → UI truthfully confirms storage without fabricating external operator alerts.

4. Government Portal Extension & Explicit Consent Barrier

1:25 - 2:00 (35s)

Chrome Extension Demo: Floating widget injects into live government portal (scholarships.gov.in / MahaDBT), auto-maps DOM fields, and guides the citizen directly in the live browser tab.
Strict Consent Barrier: Submissions without explicit consent return status: blocked. With consent, system issues official permanent reference ID: SV-SCH-2026-XXXXXX.

UNCONFIRMED COMMITS

Standardized 15-Test-Case Evaluation Matrix (TC01 – TC15)

ID	Test Scenario	Input Utterance / Trigger	Expected Engine Behavior	Result
TC01	Standard Hindi Name	"मेरा नाम आरव शर्मा है"	Candidate: Aarav Sharma, Conf ≥ 0.90	PASS
TC02	Honorific / Dialect Name	"श्रीमान राजेश कुमार पाटिल"	Strips honorific → Rajesh Kumar Patil	PASS
TC03	Marathi Natural Income	"दोन लाख पन्नास हजार"	Compound parsed → 250000 integer	PASS
TC04	Spoken Indian Date	"पंद्रह मई दो हजार चार"	Normalizes to 15/05/2004 (DD/MM/YYYY)	PASS
TC05	10-Digit Mobile with Pauses	"98 76 54 32 10"	Cleans spaces → exactly 10 digits	PASS
TC06	Low-Confidence Utterance	Background noise / whisper (< 0.60)	Rejects candidate → Issues polite retry	PASS
TC07	Ambiguous Input	Partial college name utterance	Clarification gate prompt (0.60–0.84)	PASS
TC08	2 Consecutive Failures	2 failed speech turns on same field	Prominently renders Text Fallback card	PASS
TC09	3 Consecutive Failures	3 failed turns or citizen help click	Generates verified TKT–XXXXXX in DB	PASS
TC10	Duplicate Submission	Duplicate submit call on same session	Idempotent: returns existing ID (no duplicate)	PASS
TC11	Incomplete Fields	Submitting with missing required values	Blocked (status: incomplete, App ID = null)	PASS
TC12	Missing Citizen Consent	Submitting form with consent: false	Blocked (status: blocked, App ID = null)	PASS
TC13	Valid Application Commit	All fields confirmed + consent: true	Returns permanent SV–SCH–2026–XXXXXX	PASS
TC14	Document Verification	Aadhaar vs Marksheet name mismatch	Flags MISMATCH / PHONETIC_MATCH	PASS
TC15	Offline Mode & PWA Sync	Network offline → fills form step	Persisted in IndexedDB; auto-syncs online	PASS

 **Security, Privacy & Integrity Guarantees:** All citizen passwords encrypted using **Argon2id**. Zero unconfirmed commits. Cross-user ticket access blocked via **HTTP 403 Forbidden**. Zero Aadhaar/OTP values logged. Local database files locked to **0o600** owner permissions.
